IMPORTANT:

When printing, please note in the print dialog box there is a "Page Scaling" option. The option "None" needs to be selected here in order for the size chart to print to actual size. The default otherwise is "Shrink to Printable Area" and if this is not changed, the scale will be slightly shrunk and become inaccurate.

This size chart needs to be printed on A3 paper.

INSTRUCTION FOR USE:

To determine your correct size,

Place your heel on the chart where indicated and measure to the end of the longest toe. If the toe is between numbers, choose the larger size.
