## Modern Look. Ratchet System

New Appearance.  
Matte Finish Surface.  
Aesthetic Design.

# FlexGen™ Ratchet Suspension

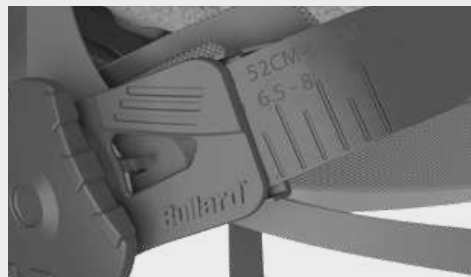

COMFORT. STYLISH. SAFETY.

## Smoother. Ratchet System

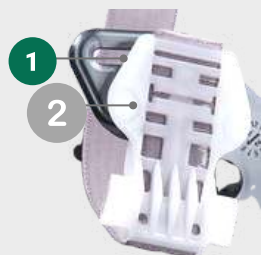

Metal-free.  
Big Triangle Knob.  
Easy Adjustment.

## One System fits all. Adjustable Sizing

Ratchet suspensions can be  
adjusted between helmet  
sizes 6 1/2" - 8" (52-64cm).

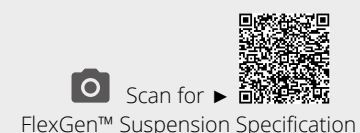

## Front and Rear. Height Adjustment

Two-level of adjustment on height to better  
allow the helmet suspension to sit on your head comfortably.

As the inventor of the safety helmet, Bullard has  
focused its efforts on saving lives with high-quality  
safety products for more than 120 years.

Designed for Bullard industrial safety helmets, the  
FlexGen™ ratchet suspension offers outstanding  
performance with all-day comfort wear and a modern  
matte finish surface with a triangle large knob for a  
stylish look from the rear. The nape swivel pad sits  
gently just below the bump of the occipital bone,  
holding the helmet securely onto your head.

FlexGen™ Suspension Specification

## More Comfortable. Nape Swivel Pad

The ergonomics design reduces peak force to the wearer's neck,  
provides optimal air circulation and prevents hair from getting pulled.

Snug-fit.  
Flexible.  
Stress Release.

## Personal Hygiene. Nape Cover (Optional)

Extra comfort for Nape Swivel Pad.

Easily removable from the helmet,  
which allows user to wash them at  
any time and prevent bacteria  
growth on the skin.

**Industrial Safety Helmet**

**SEE WHAT YOU'VE  
BEEN MISSING**

**SEE WHAT YOU'VE BEEN MISSING**  
**AboveView™ by Bullard**  
Increases your upper peripheral view by more than 50%

Featuring a see-through visor that allows workers to see hazards overhead, the AboveView™ helmet increases a worker's peripheral view by 50%. The helmet is designed with a wide brim for increased protection from the elements and comes equipped with accessory slots for a variety of attachments.

AboveView comes with 20mm nylon crown stripes, a large easy-to-clean vinyl brow pad, and FlexGen™ ratchet suspension.

AboveView is the only safety helmet offering replaceable visors in clear, grey, and yellow tints. Made from high-density Polyethylene.

Standard Series  
**Industrial Safety Helmet**

THE  
**STANDARD**  
SERIES

The Standard Series by Bullard takes style and comfort to a new level. A low-profile shell with a look workers prefer, Bullard's 3-Rib design, and comfort suspension define the Standard Series.

Lightweight and trim, the Standard style helmets feature a low center of gravity for exceptional balance.

**Cap Style. Flat Front. Non-vented Design.**  
**S51 Safety Helmet**

With its 4-point suspension and large brow pad, the S51 is ideal for the everyday work.

- High-density, polyethylene shell with flat-front design.
- Low profile design offers sleek style.
- Available in self-sizing Pinlock suspension – Incremental sizing of 1/16" hat size (5mm) makes a secure fit easy, or FlexGen™ Ratchet suspension – Ratchet suspensions can be adjusted between hat sizes 6 1/2" - 8".
- Features accessory slots for attaching a variety of accessories such as earmuffs and face protection, including those of other manufacturers.
- Rain trough provides extra protection against snow, rain, dust and dirt.
- One of the lightest helmets of its class.
- ANSI/ISEA Classification Z89.1, Type I, Class E & G requirements.

### PERMANENT PAD PRINTED LOGOS

Bullard's advanced pad print technology enables our customers to have clear and vivid logos in up to six colors on the safety helmet in up to eight dedicated locations.

Contact your Bullard representative to design the special graphics for your marketing campaign or public event.

# Industrial Safety Helmet

## Classic Series

The foundation of the Bullard head protection product line is a selection of classically styled models. Designed with a wide-profile and brim, Classic Series helmets enhance ventilation, provide increased protection from the sun and rain, and offer greater comfort for outdoor workers.

Learn more ▲

## Classic High Heat Series

To meet the demands of high heat environments, Bullard offers safety helmets in technologically advanced thermoplastic. Constructed from the same materials as our rugged firefighter helmets, Classic High Heat Series Models 911C and 911H are ideal for utilities, welding, foundries, and steel mills.

Learn more ▲

## CEN10™ Protective Helmet

A century of head protection innovation defines the Bullard CEN10™ Helmet, expertly designed to give wearers the highest level of protection, comfort, reliability, and toughness. CEN10 is Head Protection Reinvented™ for the industrial worker.

Learn more ▲

## Advanced Series

Bullard Advanced Series provide impact protection for the top, front, back and side of the head. It is designed for workers who need head protection where there is high risk of lateral and overhead impacts, including those resulting from falls. Vector helmet is ideal for construction, utilities and everyday work environments and Advent® is ideal for specialized rescue operations.

Learn more ▲

## Bump Cap

Designed for industries such as meat and food processing, utility meter reading, pest control, fruit harvesting, auto repair and laboratories, Bullard Bump Cap and First Base® offer a variety of user options.
