

## **Technical Data Sheet**

These goods are considered Articles and are therefore exempt from OSHA Hazard Communications Regulations for Safety Data Sheets.

Technical Data Sheet: TDS-242

Product Identifier: PIG® Dryer-Safe Reusable Water Absorbent Sock (WTR019)

General Use: PIG® Dryer-Safe Reusable Water Absorbent Sock is a reusable sock that absorbs condensation and water seepage

around doors, window, and equipment. It is washer and dry safe for cleaning.

Composition:

CAS: 25038-59-9 Polyester 100%

**Storage Recommendations**: Store in a cool, dry environment. Avoid long-term contact with direct or reflected sunlight or other sources of UV light, such as high- intensity lighting.

**Shelf Life:** Indefinitely, if provided Storage Recommendations are observed.

## **Personal Protective Equipment (PPE):**

Gloves: cloth, canvas, leather or rubber gloves are recommended as a good industrial practice.

Eyes: Safety goggles or glasses with side shields as a good industrial practice

**Fire Control Measures**: Unused Form: Water, Foam, or carbon dioxide Used Form: Extinguishing agents appropriate for absorbed liquid

**Physical Properties:** 

pH: Not Applicable

Melting Point: 482-500°F (250-260°C)

Initial Boiling Point and Range: Not Applicable

Flash Point: Not Applicable Method: Not Available Relative Density (H2O = 1): 1.3-1.4 gr/cc @ 68°F (20°C)

Solubility in Water (25°C): Practically Insoluble Auto-ignition Temperature: Practically Insoluble 950°F (510°C)

Stability & Reactivity:

Conditions of Reactivity: Not Established

Incompatible Materials: Strong Oxidizing Agents, Acids, Bases

Conditions to Avoid: Excessive heat above 662°F (350°C) or flame or mixing with incompatible materials Hazardous Decomposition: Temperatures between 266-374°F (130-190°C) the applied finish may evaporate or

decompose.

**Waste Disposal**: This material is NOT defined as hazardous by the Resource Conservation and Recovery Act. It is the product user's responsibility to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a hazardous waste.
