

PIG® Pipe Leak Diverter Tarp

TLS200 ext. dia. 12" x 12" H, Leak Diverter Tarp; Hanging Straps, Install With Hanging Straps

Catches pipe leaks or condensation to protect equipment, inventory and people.

- Easily keep rain and snow from storming *inside*. Whether condensation and ice, or heavy rain from a high-wind hurricane, this solution will quickly protect your team and what you've built.
- Hangs from a leaking pipe to catch nuisance leaks and channel them to a floor drain, collection container or portable storage tank
- Fast and economical way to prevent damage until pipe repairs can be made
- Heavy-duty vinyl-coated tarp resists punctures, UV and mildew and lasts multiple deployments
- Built-in brass grommets and included 14"-long rubber straps make it easy to hang from an overhead pipe; multiple hanging points add stability and preserve shape
- Choose yellow for high visibility or clear to monitor leaks
- Flow rate of 3.33 gallons per minute when used with a 1/2" ID hose
- Hose and collection container sold separately
