

## PIG® Pipe Leak Diverter Tarp

TLS691 ext. dia. 24" x 24" H, Leak Diverter Tarp; Hanging Straps, Install With Hanging Straps

Catches pipe leaks or condensation to protect equipment, inventory and people.

- Hangs from a leaking pipe to catch leaks and channel them to a drain or collection container
- Easily keep rain and snow from storming *inside*. Whether condensation and ice, or heavy rain from a high-wind hurricane, this solution will quickly protect your team and what you've built.
- Heavy-duty vinyl-coated tarp resists punctures, UV and mildew and lasts multiple deployments
- Built-in brass grommets and included rubber straps make it easy to hang from an overhead pipe
- Brass grommets resist tearing; multiple hanging points add stability and preserve funnel shape
- Choose yellow for high visibility, gray to blend with plant ceilings or clear to monitor leaks
- Flow rate of 3.33 gallons per minute when used with a 1/2" ID hose
- Hose and collection container sold separately
