Morning Pride® Gear

Structural and Proximity

+ The one and only genuine Morning Pride® TAILS™ System, recognized and established over the years for its proven protection and reliability.

+ The Morning Pride® coat is designed with Kinetic Kut™ patterning, true three-piece tailoring in all three layers of the garment, and built-in underarm bellows with Forward Flex™ sleeves that dramatically reduce sleeve retraction.

+ Engineered to work together with the Morning Pride® pants as part of the TAILS™ System, the Morning Pride® coat innovatively eliminates unnecessary weight, reduces physical stress, eliminates bunching at the waist, and prevents undesirable sleeve retraction.

Extraordinary Classic Design

Certification
NFPA 1971

Features and Benefits

Available Coat and Pant Closure Systems

- Hooks and D-rings outside flap, with hook and loop coat closure (standard)
- Hook and D-ring with hook and loop pant closure (standard)
- FDNY coat closure (optional)
- Zipper plus hook and loop (optional)
- Hooks and D-rings inside flap plus hook and loop coat closure (optional Chicago coat closure)
- Hooks and D-rings with hook and loop and zipper coat closure (optional)

Standard Coat Features

- Kinetic Kut™ Styling** – Significantly reduces hem rise and sleeve retraction, allowing for greater range of motion and protection (patented)
- TAILS™ System** – Reduces weight, increases range of motion, and eliminates bunching when bending forward
- Forward Flex™ Sleeve** – Patented design eliminates undesirable sleeve retraction when reaching up or forward
- Articulating Drag Rescue Device** – Adjusts to maintain equal leverage on a downed firefighter even when pulling from an angle (patented)
- Comfortable Chinstraps** – Curved design for better fit and less irritation
- Single-seam Sleeves** – Innovative design eliminates second seam, reducing wear point
- Waterproof Wristlets** – Patented double-layer Nomex® wristlets with continuous moisture barrier seal out liquids at the wrist
- Hybrid Long Tabbed Wristlets** – Durable and comfortable thumb locator option doesn't interfere with glove donning
- Inspection Ports** – Patented feature allows for easier inspection of thermal liner and moisture barrier
- Continuous Protection** – Outer shell, moisture barrier, and thermal barrier overlap at coat facings, collar linings, and pant fly to give uninterrupted protection
- Seam Guards** – Placed over trim threads at high-abrasion areas to reduce wear (patented)
- Three-piece Coat Pattern Throughout All Layers** – Allows greater reach, flexibility, mobility, and protection while also dramatically improving the garment's durability
- Postman Take-up Straps** – Provide a better and tailored fit

Standard Pant Features

- Full Range of Motion Crotch** – Patented U-shape design and diamond-shaped insert allow greater leg mobility
- Low-waist Comfort Pant** – Increases mobility at waist, reduces weight, and allows for more ventilation so it feels like a pair of jeans, wears like a pair of jeans
- Seam Guards** – Placed over trim threads at high-abrasion areas to reduce wear (patented)

Popular Coat Options

- Dead Air Thermal Enhancement
- Panels Reinforcements
- Half-height Bellows Pockets – 6" x 9" x 1.5"
- Leather or Ara-shield® Cuffs, Shoulder Caps and Elbows
- Lettering on Back Patch
- Radio Pocket – 8" x 3" x 2"
- Microphone Tab
- Long Tabbed Nomex® Wristlets
- Choice of Required Trim Packages

Popular Pant Options

- Knee Protection
- Postman Take-up Straps
- Leather or Ara-shield® Knees
- Bellows Pockets – 9" x 9" x 1.5"
- Heavy-duty Red or Dyna-Fit Suspenders
- Choice of Required Trim Packages

Honeywell

ULTRAMOTION® Gear

Structural and Proximity

+ Inspired by extreme sports such as skiing and snowboarding, ULTRAMOTION® turnout gear delivers the same performance advantages sought by elite winter athletes to firefighters in their daily jobs: comfort, fit, thermal protection and mobility.

+ Ergonomically engineered to reduce fabric bulk while maximizing mobility, ULTRAMOTION® Gear offers a full range of motion to all areas of the body. The result – cutting-edge athletic gear that shapes to your body and moves with you.

Maximized Mobility

Features and Benefits

Available Coat and Pant Closure Systems

- All paired with hook and loop
- Zipper under flap
- Hooks and dees outside flap
- Hooks and dees inside flap closure (optional)

Standard Coat Features

- Unique Ergonomic Shoulder and Underarm Design** – Increases venting, eliminates the gusset for less bunching under the arm, increases comfort, and minimizes coat rise
- Integrated Collar and Storm Flap T-Closer™** – Eliminates the gap found in so many other throat strap and collar designs (patented)
- Bar-tack Reinforced Stress Points** – For enhanced durability
- SteamGard™ Wrist Trim** – Helps reduce the risk of compression burns
- Sidewinder™ Coat Pockets (graded size)** – Many other pocket types available as options, all sewn below the waist to avoid overlap with SCBA straps (patent pending)
- 5-panel Coat Design** – Means athletic cut with no excess fabric
- Radio Pocket**
- Nomex® Webbing Microphone Loop**

Standard Pant Features

- Ergonomic Leg** – Two front panels divided at the knee. The lower front panel is convex at the knee for better mobility and fit in all positions.
- Side Adjustment Pull-tabs** in tough and durable Nomex® webbing. Waist adjustment of 4" to 6" provides a better, tailored fit.
- Lo-rise Front, Hi-rise Back Pant** – Maximizes mobility and flexibility
- Neoprene-lined, Anti-wicking Pant Bottoms** – Protect against water wicking up

Popular Coat Options

- Wristlets with Thumbholes
- Leather or Hypalon Cuffs and Elbows
- Shoulder and Elbow Pads
- Kevlar® Reinforced Pockets
- Glove Holder Webbing
- Lettering on Back Patch
- Choice of Required Trim Packages

Popular Pant Options

- Full-bellows Pockets – 10" x 10"
- Oversize Knee Reinforcements
- Kevlar® Reinforced Pockets
- Choice of Knee and Cuff Reinforcements
- Leather or Hypalon Cuffs and Knee Patches
- Knee Pads
- Semi-bellows Pockets – 9" x 9"
- S14 Buckle Suspender System
- Waterwells
- Choice of Required Trim Packages

Certification
NFPA 1971

Honeywell

Ranger™ Gear

Structural and Proximity

+ The Challenge
Design a set of gear that is amazingly light yet highly protective, at a price every department can afford, without sacrificing quality.

+ Our Solution – Ranger™ Gear
Tough, rugged, made to fit each unique firefighter, Ranger™ Gear protects through the roughest of calls. Offering you a wide variety of options so you can custom design your gear to serve your specific needs, Ranger™ Gear is comfortable and light, making it the optimal choice for budget-conscious fire departments who do not want to compromise on quality and choice.

Priced Light, Made Light

Certification
NFPA 1971

Features and Benefits

Coat and Pant Closure Systems

- Storm shield with zipper hook and loop closure
- Narrow pant fly with hook and dee closure

Standard Coat Features

- Variegated Length Hem (TAILS™)** – Increased range of motion in upper legs, improved torso ventilation, better visibility from behind
- Raglan Sleeve with Forward Flex Attribute** – Higher comfort, better mobility in the arm
- Nesting of All Three Garment Layers** – Three layers work as a system to maximize ergonomic function of the gear
- Hook and Loop Double Stitched on Coat Closure, Chinstrap, and Collar** – Longer durability
- Seam Guard on Trim at Cuff** – Better abrasion resistance of threads in high-abrasion areas for longer durability (patented)
- Articulating Drag Rescue Device** – Comfortable in everyday wear, able to deploy in multiple directions with little discomfort to the wearer, rolled edges reduce abrasion against moisture barrier (patented)
- Leather Cuff Reinforcements** – Longer durability in high-abrasion areas
- Shoulder and Elbow Thermal Enhancements** – Increased thermal protection in compression areas
- Continuous Waterproof Wristlet** – Minimizes seepage at the wrist

Standard Pant Features

- Traditional Waist-high Pant** – Increased mobility at the waist, full torso ventilation
- Full Access Pant Fly** – Easier for donning and doffing, stores over boots more easily
- Leather Cuff Reinforcements** – Longer durability in high-abrasion areas
- Seam Guard on Trim at Cuff** – Better resistance of threads in high-abrasion areas for longer durability (patented)
- Postman Take-up Straps** – Provide a better and tailored fit

Popular Coat Options

- 35" Ranger Model
- Leather or Ara-shield® Cuffs, Shoulder Caps and Elbows
- Lettering on Back Patch
- Half-height Bellows Pockets – 6" x 9" x 1.5"
- Radio Pocket – 8" x 3" x 2"
- Microphone Tab
- Long Tabbed Nomex® Wristlets
- Choice of Required Trim Packages

Popular Pant Options

- Leather or Ara-shield® Knees
- Bellows Pockets – 9" x 9" x 1.5"
- Heavy-duty Red or Dyna-Fit Suspenders
- Choice of Required Trim Packages

Honeywell

Vectra SL™ Structural Gear

Certification
NFPA 1971

Comfort in Action

Vectra SL™ synergizes advanced design with conventional styling for firefighters who have an affinity for the traditional look. Vectra SL™ is engineered with ample displacement for all-around comfort, mobility, and performance.

Compatible with all body types, Vectra SL™ offers ample displacement – key to improved bending of torso, arms, and legs.

Features and Benefits

- Coat Closure System**
All paired with hook and loop
- Zipper under flap
 - Hooks and dees inside flap

- Pant Closure System**
- Hook and dee outside flap

- Standard Coat Features**
- Full-cut Body Design** – For ample movement
 - Action-back Pleats, Ergonomic Two-piece Arm, Underarm Gussets in All Three Layers** – Provide comfort and mobility
 - Stand-up Collar and Linkable Throat Tab** – For quick collar closure
 - Uninterrupted Zip-in Liner System** – For gapless protection
 - Offset Seams Between Each Layer** – Reduce abrasion
 - Steam-blocker Elbows and Shoulders** – Maximize heat protection in critical areas
 - Choice of Cuff Reinforcements** – Matching your specification needs
 - Radio Pocket**
 - Nomex® Webbing Microphone Loop**

- Standard Pant Features**
- Oversize Knee Reinforcements** – For increased protection
 - Steam-blocker Knees** – Maximize heat protection in critical areas
 - Full-bellows Pant Pocket** – 10" x 10" for maximum capacity
 - Side Adjustment Pull-tabs** in tough and durable Nomex® webbing
 - Waist adjustment of 4" to 6" provides a better, tailored fit
 - Choice of Knee Reinforcements** – Matching your specification needs

- Popular Coat Options**
- Full-bellows Coat Pockets – 9" x 9"
 - Leather or Hypalon Cuffs and Elbows
 - Shoulder and Elbow Pads
 - Radio Pocket
 - Microphone Loop
 - Lettering on Back Patch
 - Department Patches
 - Choice of Required Trim Packages

- Popular Pant Options**
- Leather or Hypalon Cuffs and Knee Patches
 - Knee Pads
 - Insulated Back Bib
 - S16 Removable Suspenders
 - Choice of Required Trim Packages

Honeywell

VE Gear™ Structural

Certification
NFPA 1971

Optimal Value in Action

VE Gear™ was developed to deliver value-engineered turnout gear fully certified to NFPA standards, at a price that meets the needs of more budget-restrained departments. It offers two closure styles, both fully equipped with the necessary options to ensure safe and functional performance.

With VE Gear™, you know you are getting tough, reliable gear that will not compromise protection.

Features and Benefits

- Available Coat Closure Systems**
All paired with hook and loop
- 32" Coat – zipper under flap
 - 34" Coat – hooks and dees outside flap

- Pant Closure System**
- Hook and dee outside flap paired with military-grade snaps

- Standard Coat Features**
- Leather or Hypalon Shoulder Patches** – Added protection in key compression areas
 - Clean-flow Collar Design** – No bulky flaps
 - Free-up Sleeve Construction** – No bulky gussets
 - Neoprene Elbow Patch Sewn on Liner** – Added thermal protection in compression areas
 - Angled Patch Pockets** – Easy access
 - Sleeve / Liner Wrist Attachment with Four Snap Fasteners** – Eliminates sleeve retraction
 - Neoprene Waterwell** – Improved water resistance and durability
 - Leather or Hypalon Wrist Cuffs** – Improved durability
 - Radio Pocket**
 - Nomex® Webbing Microphone Loop**
 - 2" Solid 3M™ Scotchlite™ Reflective Trim**
 - Snap-in Liner** – For easy cleaning

- Standard Pant Features**
- Semi-bellows Pockets** – Easy access
 - Leather or Hypalon Knee Patch** – Improved durability and comfort
 - Ara-Fill® Knee Patch Sewn on Liner** – For added protection in key compression areas
 - Leather or Hypalon Pant Cuffs** – Improved durability
 - Side Adjustment Pull-tabs** in tough and durable Nomex® webbing.
 - Waist adjustment of 4" to 6" provides a better, tailored fit
 - 2" Solid 3M™ Scotchlite™ Reflective Trim**

- Popular Coat Options**
- Back Patch with Department Name
 - Choice of Required Trim Packages

- Popular Pant Options**
- S13 Removable 8-point Button Suspender System
 - Choice of Required Trim Packages

Rugged Structural and Proximity Helmets

■ EXTREMELY STRONG ■ INNOVATIVE ■ CUSTOM COMFORT FIT

Morning Pride® Ben 2 LR Low Rider Helmets Traditional

Features

- Strongest shell on the market
- Rugged and dependable
- Lightweight
- High heat performance
- Protected suspension straps
- More sizes, most adjustability
- Low riding, good fitting, low center of gravity
- Six-point suspension and wider interior give wearers superior comfort and fit
- Headband/ratchet fits a wide range of hat sizes – from under size 6 to over size 9
- Six-position depth adjustments provide more than an inch and a half depth difference at the front and at the rear, make it possible to fit any head with just a few quick and easy adjustments
- Comfortable and easy to replace suspension
- Two-piece padded-brow comfort cap and ratchet
- Nomex® quick-release chinstrap with postman slide
- Large hang-up loop
- Shell colors: black, white, red, yellow, orange, blue, green

Models

Honeywell Leather Footwear

+ The PRO Series Model 3009 – when comfort meets superior performance.

Firefighters around the world have experienced the advantages of this lightweight and great-fitting professional leather fire boot for the past 20 years.

+ The PRO Series 3006 is anatomically contoured to hug your lower leg and foot through the use of specially designed side panels.

The most comfortable and versatile 10" fire boot on the market.

+ The PRO Series Model 3050 was built with the wildland firefighter in mind. This 8" boot is equipped with a Cambrelle® liner that fights mold and mildew.

In addition, this popular boot features a Goodyear welt, a Vibram® Olympia outdoor lug sole, and a 1.5" padded collar that provides a snug fit and helps keep grit, splinters, and insects out.

PRO Series Leather Firefighting Boots

Model
3009

Features

- 14" pull-on structural boot
- Goodyear welt construction
- Vibram® lug soles
- Premium full-grain military AB leather
- Full Crosstech® moisture barrier bootie with 7.5 oz 100% virgin Kevlar® felt thermal barrier and Cambrelle® fabric liner
- Silicone-impregnated leather toe cap
- Oblique steel toe, bottom plate, and shank
- Thermoplastic heel counter
- APT barcoded – departmental NFPA 1851 tracking
- Widths: D, E, EEE
Full sizes: 5 to 16
Half sizes: 5½ to 12½

Certification

- NFPA 1971

Honeywell Rubber Footwear

+ Certified to NFPA 1971 and NFPA 1992 for structural and liquid-splash protection, these lightweight rubber boots are engineered for maximized protection, comfort, and durability, protecting you against punctures, moisture, and electrical shocks.

+ Constructed of natural rubber or a combination of natural and butyl rubber, Honeywell rubber footwear offers the most complete protection available in every hazardous environment. Roomy steel toe, bottom plate, and shank protect against impact/compression and puncture.

+ Offered in both insulated and non-insulated models with a choice of Kevlar®/Nomex® or wool felt lining to fit every fire department budget. All models are built on the same last with the same molded sole for consistent sizing throughout the entire line.

Ranger™ Series Rubber Firefighting Boots

Model
1000 Ranger™ Air

Premium, top of the line model, offers complete protection and lightweight comfort. Only rubber boot on the market utilizing athletic spacer mesh material laminated to buoyant, waterproof neoprene. A combination of natural rubber and butyl rubber ensures complete chemical protection to certified standards.

Certification
