

The Mini-Cube™ Portable Area Lighting

The Mini-Cube™ is a lightweight, highly portable light source with extended runtime to illuminate the job site in any weather condition.

The internal 35 amp AGM battery pack provides over 32 hours of runtime. Each LED lamp delivers 1035 lumens and are IP-68 rated for dust and water use conditions. Each LED lamp is multidirectional on an 8 foot retractable aluminum pole. The Mini-Cube™ is available with a single or dual LED lamphead.
