

SECUNORM 175
SMALL FORM, BIG PERFORMER.

ENJOY SAFETY
MADE IN SOLINGEN

martor

SECUNORM 175

NO. 175001

Original size

4-times usable blade

Why do you benefit more from your blade? With its four sharp edges, it can be rotated four times. That's why. The result? Blade life is quadrupled and you stay sharp for longer.

Ergonomic handle

MARTOR wants to make your work easier for you, which is why we always have ergonomics in mind. With its small size and rounded off end, there's nothing uncomfortable about this cutter. A grooved slider offers grip for even better handling.

Easy blade change

Once again we've improved blade change. Simply press against the blade change button and pull to open the handle. The slider automatically folds up, revealing the blade. Rotate or change and continue cutting.

Double-sided slider

The SECUNORM 175 is user friendly in the best sense of the word. And with its double sided slider, it is suitable for both, right and left handed users. No modification required.

Practical eyelet

A cutting tool as handy as the SECUNORM 175 fits in your pocket. Mostly! To make your cutter even more available, you can pull a strap through the eyelet. And hang it around your wrist, for example.

Surprisingly comfortable, incredibly capable.

The SECUNORM 175 enriches our range of popular small box cutters. Its unique features include the cleverly-designed and incredibly easy blade change system. Other highlights include its ergonomic handle, double-sided slider and a fresh design. The SECUNORM 175 is a versatile cutting tool that apart from cardboard boxes, also masters bags, films and strappings.

Application

Safety technology

Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 175 ensures a high degree of safety from cut injuries. As soon as you have started cutting, take your thumbs off the slider. And the blade will immediately retract into the handle after leaving the material being cut.
