

# RESPIRATORY PROTECTION

Designs for Comfort and Protection

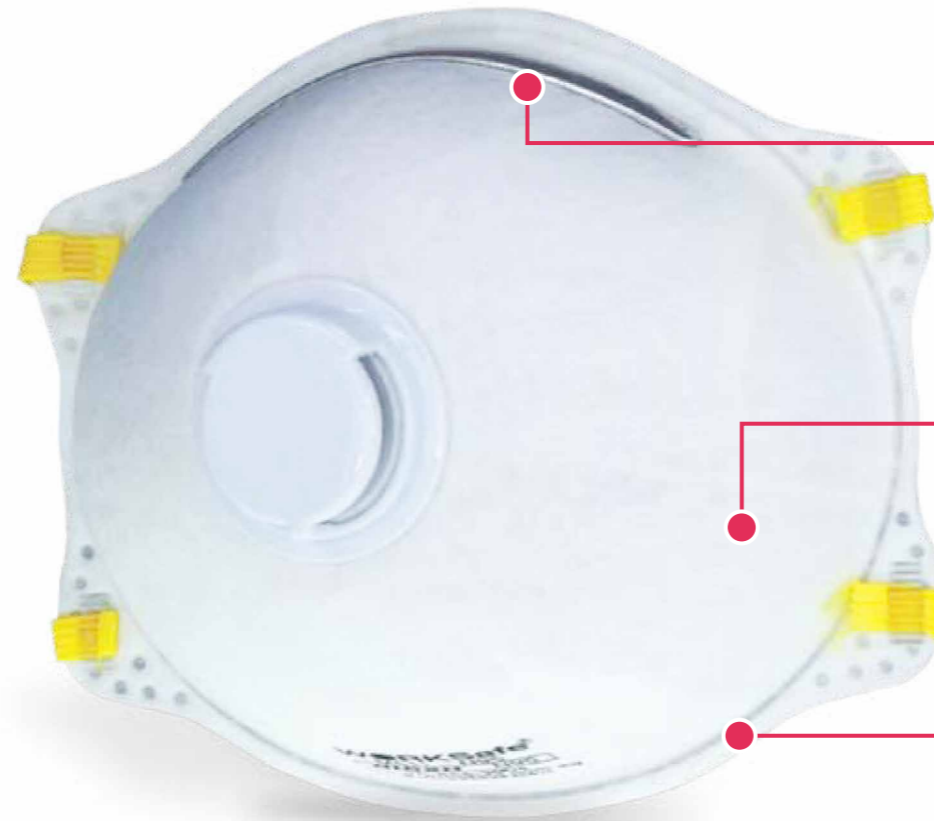

# INTRODUCTION

Safety professionals and industrial hygienists want to provide respiratory protection and training for their workers. However, they face many challenges.

Most workers accept at face value the importance of wearing eye protection, hard hats, safety boots and gloves because the unfortunate consequences of accidents are immediate and dramatic. However, they may not recognise the importance of respiratory protection because many airborne contaminants cannot be seen or tasted. Furthermore, their harmful effects may only manifest years later. To help reduce worker exposure to airborne contaminants, a comprehensive respiratory protection program must be established at work.

WORKSAFE® has a singular focus: People Protection. Driven by this mission, the company develops and distributes products and services that provide safety and protection at home and in the workplace.

Fuelled by extensive research and development, our WORKSAFE® product line continues to expand to meet the demand for a variety of safety products. WORKSafe® listens and responds to workers' specific needs. The M-series N95 respirator mask is a result of our commitment to deliver superior products backed by research and innovation. This mask exceeds NIOSH 42CFR84 standards, and offers long lasting comfort, cost effectiveness and reliable protection.

### Adjustable noseclip

- Helps provide a custom fit and secure seal
- Reduces the potential for eyewear fogging

### All Filter Design

- Provides economical protection
- No spare parts to clean and maintain

### Lightweight Construction

- Promotes greater comfort
- Contributes to increased wear time

## WORKSafe® M210N95

Particulate Respirator

### 400WSRM210N95

- Meets NIOSH 42 CFR 84 N95 requirements. TC-84A-5411
- Packing: 20 pcs/box

## WORKSafe® M110N95

Particulate Respirator

### 400WSRM110N95

- Meets NIOSH 42 CFR 84 N95 requirements. TC-84A-5463
- A smaller alternative to M210N95
- Packing: 20 pcs/box

## WORKSafe® M247N95

Particulate Respirator with Nuisance Level Organic Vapour Relief

### 400WSRM247N95

- Meets NIOSH 42 CFR 84 N95 requirements. TC-84A-5525
- Odor-removing filter material (carbon layers) removes many nuisance odors for greater comfort and productivity
- Packing: 10 pcs/box

## WORKSafe® M511N95

Particulate Respirator with Exhalation Valve

### 400WSRM511N95

- Meets NIOSH 42 CFR 84 N95 requirements. TC-84A-5460
- One-way exhalation valve offers easy exhalation for cool, dry comfort
- Packing: 10 pcs/box

## WORKSafe® M210N95

Disposable 3-Ply Medical Mask

### 400WSR100

- High bacterial filtration efficiency
- Adjustable nose-clip conforms to nose for a secure seal
- Enhanced breathability & fluid-resistant & hypoallergenic
- Complies with EN14683 (Type II) standard
- Packing: 50 pcs/box
