SONTARA® CATALOGUE

2019

TABLE OF CONTENTS

EC Range	3 – 8
PrintClean Range.....	9 – 11
SPS Range	12 – 16
MicroPure Range.....	17 – 24
AC Range.....	25 – 30
Foodservice Range	31 – 35
General Wiping	36 – 37
Accessories	38 – 44

SONTARA® EC RANGE

(Designed specifically for general industrial purposes)

Strong performance

Nothing beats Sontara® EC in all-around performance. Wet, dry or in between, Sontara® EC wipes are more versatile than cloth rags, stronger and more durable than paper, and less expensive in use than both. They're made under strict production controls for consistent quality, size and packaging.

Sontara® technology

Sontara® EC wipes are manufactured in a “spunlacing” process, using needle-like jets of water to “entangle” fibres into one of the finest wiping fabrics ever made. They are made of a tough, durable material that resists abrasion and solvents, contains no binders or glues, is low-linting, and highly absorbent in water, oil and solvents.

Cleaning ability

Sontara® EC wipes are ideal for many applications, including aviation, manufacturing, painting, auto- and machinery repair, printing, graphic arts, and more...

SONTARA® EC IN FLAT BULK

Product code: 2020
 Product name: **SONTARA® EC – IN FLAT BULK**
 D 1379 1226
 Colour / Material: Turquoise / Creped K947S
 Grams/m2 (gsm): 77
 Sheet size: 300mm x 300mm
 Packaging: 100 wipes / pack
 10 pack / carton
 18 carton / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC LIGHT IN FLAT BULK

Product code: 2060
 Product name: **SONTARA® EC LIGHT – IN FLAT BULK**
 D 1368 3578
 Colour / Material: Turquoise / Creped K902S
 Grams/m2 (gsm): 53
 Sheet size: 300mm x 300mm
 Packaging: 200 wipes / pack
 6 pack / carton
 18 carton / pallet

Sontara® EC Light wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC IN ROLLS

Product code: 2030
Product name: **SONTARA® EC – IN ROLLS**
D 1365 0828
Colour / Material: Turquoise / Creped K947S
Grams/m2 (gsm): 77
Sheet size: 300mm x 380mm
Packaging: 400 wipes / roll
60 rolls / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC LIGHT IN ROLLS

Product code: 2070
Product name: **SONTARA® EC LIGHT – IN ROLLS**
D 1368 3561
Colour / Material: Turquoise / Creped K902S
Grams/m2 (gsm): 53
Sheet size: 320mm x 420mm
Packaging: 500 wipes / roll
60 rolls / pallet

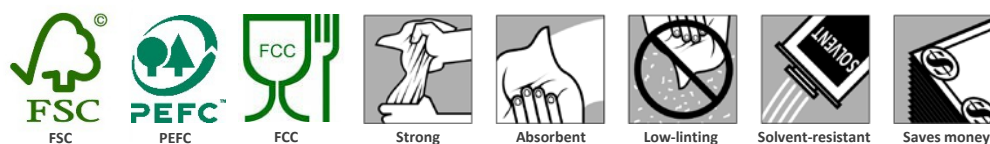

Sontara® EC Light wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC IN POP-UP BOX

Product code: 2010
Product name: **SONTARA® EC – POP-UP**
D 1379 1230
Colour / Material: Turquoise / Creped K947S
Grams/m2 (gsm): 77
Sheet size: 320mm x 420mm
Packaging: 250 wipes / carton
66 cartons / pallet

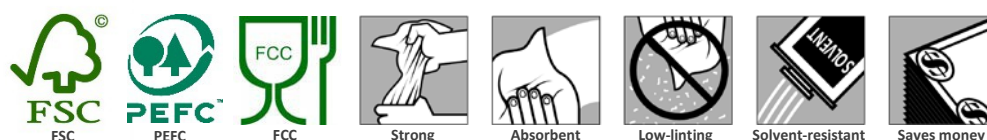

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC LIGHT IN POP-UP BOX

Product code: 2050
Product name: **SONTARA® EC LIGHT – POP-UP**
D 1368 3550
Colour / Material: Turquoise / Creped K902S
Grams/m2 (gsm): 53
Sheet size: 300mm x 420mm
Packaging: 300 wipes / carton
66 cartons / pallet

Sontara® EC Light wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC GRIP - ¼ FOLDED

Product code: 2080
 Product name: **SONTARA® EC GRIP – ¼ FOLDED**
 D 1365 0682
 Colour / Material: Turquoise / Apertured 9955
 Grams/m2 (gsm): 75
 Sheet size: 325mm x 420mm
 Packaging: 300 wipes / carton
 40 cartons / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning. The aperture surface gives the cloth good scrupping properties useful in the metalworking industry and other heavy duty work areas.

SONTARA® EC GRIP IN ROLLS

Product code: 2090
 Product name: **SONTARA® EC GRIP – IN ROLLS**
 D 1398 7408
 Colour / Material: Turquoise / Apertured 9955
 Grams/m2 (gsm): 75
 Sheet size: 325mm x 420mm
 Packaging: 500 wipes / roll
 36 rolls / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning. The aperture surface gives the cloth good scrupping properties useful in the metalworking industry and other heavy duty work areas.

SONTARA® PRINTCLEAN

(Designed specifically for the printing industry)

High standards

Sontara® PrintClean delivers high cleaning standards for optimal printing quality. The low linting feature of Sontara® PrintClean makes it ideal for all prepress work. Thanks to its solvent resistance, high strength and low linting characteristics, Sontara® PrintClean exceeds in roller, cylinder and blanket cleaning. Perfect balance between solvent absorbency and release.

Strength & absorbency

The strength of Sontara® PrintClean combined with its low lint content and high absorbency of both solvents and viscous liquids is critical for the effective cleaning of printing plates. The high absorbency and outstanding chemical resistance of Sontara® PrintClean make it well suited for the difficult cleaning of ink jet nozzles and the rest of the inking system.

Effective cleaning

The strength and absorbency of Sontara® PrintClean are particularly welcomed for the effective cleaning of printing rolls. The high abrasion resistance and strength of Sontara® PrintClean are strong arguments for its use in cleaning gears, switches and other mechanical parts of the press.

SONTARA® PRINTCLEAN - IN ROLLS

Product code: 2095
 Product name: **SONTARA® PRINTCLEAN – IN ROLLS**
 D 1365 0663
 Colour / Material: White / Apertured 9982
 Grams/m2 (gsm): 80
 Sheet size: 325mm x 420mm
 Packaging: 500 wipes / roll
 36 rolls / pallet

Sontara® PrintClean - middle or fine texture.

This cleaning cloth is suitable for the wider cleaning process from dust and dirt. This multipurpose cleaning cloth is especially useful when cleaning with solvent or water if necessary, as this cloth is highly absorbent and untearable. This cloth is available as rolls or in boxes. Solvent resistant.

Strong

Absorbent

Low-linting

Solvent-resistant

Saves money

SONTARA®SPS RANGE

(Designed specifically for surface preparation & automotive industry)

Technology for professionals

Sontara® Surface Preparation System (SPS) cloths are made of an exclusive nonwoven material developed by DuPont™. This unique fabric is the result of an advanced spunlace technology based on a water needling process that uses high pressure jets to form a tight web through hydraulic entanglement of cellulosic and polyester fibers. Contrary to many nonwovens, Sontara® does not contain any silicone, binders, fillers or other chemical additives.

High performance

Sontara® SPS cloths are ideal for degreasing because it quickly picks up and holds solvent while its textured side captures and removes contaminants.

Soft fabric

The balanced combination of viscose fibers and Dacron®, gives these wipes excellent softness and bulkiness. Its special nonwoven construction eliminates strings, fraying and lint. The Sontara® SPS range doesn't contain streak-producing additives and is ideal for overall detailing of chrome, glass and interiors, making it the product of choice for all delicate cleaning jobs in the auto body shop.

Critical cleaning jobs

The Sontara® SPS range is ideal for cleaning between coats and removing dry particles before topcoat application. Using a spunlace technology, the fabric contains very little lint and won't fray. It's also very practical when cleaning plastic parts because of its resistance to static build-up. Its formula is super clean, yet remarkably effective. Sontara® simply guarantees that you will have no sticky residue, tack transfer or fingerprints on your finish.

SONTARA® SPS PRIMARY TACK CLOTH - ¼ FOLDED

Product code: 2041
 Product name: **SONTARA® SPS – PRIMARY TACK**
 D 1357 8924
 Colour / Material: Green / T420
 Grams/m2 (gsm): 78
 Sheet size: 305mm x 457mm
 Packaging: 144 wipes / box
 12 boxes / carton
 45 cartons / pallet

Sontara® Primary Tack Cloth Medium “tackifier” effectively picks up dirt and dust before basecoat while minimizing the potential for tack transfer.

Sontara® Primary Tack Cloth Medium “tackifier” are made of conforming fabric, flexible enough to access hard-to-reach corners.

SONTARA® SPS FINAL TACK CLOTH - ¼ FOLDED

Product code: 2042
 Product name: **SONTARA® SPS – FINAL TACK**
 D 1362 5948
 Colour / Material: Blue / T010
 Grams/m2 (gsm): 78
 Sheet size: 381mm x 432mm
 Packaging: 180 wipes / box
 48 boxes / pallet

Sontara® Final Tack Cloth Light “tackifier” removes dust and overspray between coats with no fraying or linting which reduces static buildup on plastic parts and other surfaces.

Sontara® Final Tack Cloth Light “tackifier” is proven successful with waterborne paint systems.

SONTARA® SPS POLISH CLOTH - IN ROLLS

Product code: 2043
Product name: **SONTARA® SPS – POLISH CLOTH – IN ROLLS**
D 1340 2269
Colour / Material: White / Smooth 9414
Grams/m2 (gsm): 48
Sheet size: 365mm x 400mm
Packaging: 275 wipes / roll
48 rolls / pallet

An extremely soft cloth for delicate polishing jobs.
It is made of a balanced combination of viscose and polyester fibers making it especially fleecy.
Its special non-woven construction eliminates strings, fraying and lint.
Containing no streak-producing additives, **Sontara® Polish Cloth** is ideal for the polishing of all chrome, glass and painted or lacquered surfaces.

Applications:

- Manual polishing and buffing
- Recommended for use on external finishes
- Inside cleaning

SONTARA® SPS POLISH CLOTH - ¼ FOLDED

Product code: 2044
Product name: **SONTARA® SPS - POLISH CLOTH – ¼ FOLDED**
D 1364 9662
Colour / Material: White / Smooth 9414
Grams/m2 (gsm): 48
Sheet size: 360mm x 380mm
Packaging: 420 wipes / box
48 boxes / pallet

An extremely soft cloth for delicate polishing jobs.
It is made of a balanced combination of viscose and polyester fibers making it especially fleecy.
Its special non-woven construction eliminates strings, fraying and lint.
Containing no streak-producing additives, **Sontara® Polish Cloth** is ideal for the polishing of all chrome, glass and painted or lacquered surfaces.

Applications:

- Manual polishing and buffing
- Recommended for use on external finishes
- Inside cleaning

SONTARA® SPS DEGREASING CLOTH - ¼ FOLDED

Product code: 2040
 Product name: **SONTARA® SPS DEGREASING CLOTH – ¼ FOLDED**
 D 1340 1539
 Colour / Material: Turquoise / Creped K947S
 Grams/m2 (gsm): 77
 Sheet size: 325mm x 420mm
 Packaging: 200 wipes / box
 60 boxes / pallet

When it comes to automotive refinishing, **Sontara® Surface Preparation System** has a definite performance edge at every stage of the refinishing process.

The **Sontara® Surface Preparation System** is a family of technologically advanced wiping solutions that act as the basis for a perfect finish. Our products are engineered for the specific demands of the automotive refinishing industry.

Sontara® Surface Preparation System wipes are clean and manufactured without glues or binders.

The low particle content and lack of binding additives help to enhance the quality of your work.

SONTARA® SPS DEGREASING CLOTH – IN ROLLS

Product code: 2045
 Product name: **SONTARA® SPS DEGREASING CLOTH – IN ROLLS**
 D 1340 2119
 Colour / Material: Turquoise / Creped K947
 Grams/m2 (gsm): 77
 Sheet size: 325mm x 390mm
 Packaging: 500 wipes / roll
 60 rolls / pallet

The **Sontara® Surface Preparation System** is a family of technologically advanced wiping solutions that act as the basis for a perfect finish. Our products are engineered for the specific demands of the automotive refinishing industry.

Sontara® Surface Preparation System wipes are clean and manufactured without glues or binders.

The low particle content and lack of binding additives help to enhance the quality of your work.

SONTARA® MICROPURE RANGE

(Designed specifically for cleanrooms & laboratories)

Reducing contamination

Increasing productivity in cleanroom manufacturing is a challenge. This is especially true when it comes to reducing potential contamination that can cause product defects and associated yield losses. Therefore, choosing an appropriate wipe is critical to product quality and not putting your image at risk.

Sontara® technology

Sontara® MicroPure is a woodpulp/polyester nonwoven fabric. Made with hydroentangling technology, using jets of filtered, high-pressure water, Sontara® fabric is continually “washed” during manufacture. Ideally for cleanroom use since it doesn’t contain binders or require chemical treatment. The high cleanliness and purity are ensured by low extractable level and ion content as well as extremely low particle generation by the material itself.

Fabric features

The fabric offers high particle- and liquid absorbency due to their cellulose content. Unlike many other nonwoven fabrics, Sontara® MicroPure fabrics do offer an ideal combination of cleanliness, absorbency and purity in a single fabric without binders, chemicals or adhesives. Many nonwoven wipe fabrics include binders or additives or are chemically treated on the surface to reduce the particle debris. However, these additives very often reduce absorbency – an important functional property – and, in addition, can cause contamination from the wipes.

ISO 14644		ISO-3	ISO-4	ISO-5	ISO-6	ISO-7	ISO-8	ISO-9
US Fed. Std. 209		1	10	100	1 000	10 000	100 000	
GMP – European Guidelines					A/B		C	D
Sontara® MicroPure 100	The wipe for critical applications							
Sontara® MicroPure AP	The all purpose wipe							
Sontara® MicroPure SV	The wipe for less demanding applications							
Sontara® MicroPure MOP	The wipe for floor cleaning							

Requirements for wiping and cleaning levels may vary. Choosing the appropriate wipe depends on many factors, such as for example: the surface to be cleaned (smooth or rough, edges or without edges, etc.), the required level of cleanliness, procedures employed and others.

Product range

		Dimensions (mm)	Wipes per package
Sontara® MicroPure 100	The wipe for critical applications	224×224	300
		305×305	150
		457×457	75
Sontara® MicroPure AP	The all purpose wipe	224×224	300
		305×305	150
Sontara® MicroPure SV	The wipe for less demanding applications	224×224	500
		305×305	250
		457×457	75
Sontara® MicroPure MOP	The wipe for floor cleaning	300×590	500
		500×590	500
		400×700	500
		290×400	500

SONTARA® MICROPURE AP

Product code: 2110
Product name: **SONTARA® MICROPURE AP**
D 1362 0543
Colour / Material: White / Smooth 9966
Grams/m2 (gsm): 68
Sheet size: 224mm x 224mm
Packaging: 300 wipes / pack
20 pack / box

The **Sontara® MicroPure AP** is an all-purpose cleanroom wipe made of nonwoven woodpulp/polyester fabric, created by spunlace technology.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom
- Recommended for ISO class 6

SONTARA® MICROPURE AP

Product code: 2111
Product name: **SONTARA® MICROPURE AP**
D 1365 0646
Colour / Material: White / Smooth 9966
Grams/m2 (gsm): 68
Sheet size: 305mm x 305mm
Packaging: 150 wipes / pack
20 pack / box
12 boxes / pallet

The **Sontara® MicroPure AP** is an all-purpose cleanroom wipe made of nonwoven woodpulp/polyester fabric, created by spunlace technology.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom
- Recommended for ISO class 6

SONTARA® MICROPURE 100

Product code: 2115
 Product name: **SONTARA® MICROPURE 100**
 D 1351 1213
 Colour / Material: White / Smooth 9966
 Grams/m2 (gsm): 56
 Sheet size: 224mm x 224mm
 Packaging: 300 wipes / pack
 20 pack / box

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure 100** is application-engineered to protect ISO 5-8 cleanrooms from particles and additives.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE 100

Product code: 2116
 Product name: **SONTARA® MICROPURE 100**
 D 1351 1227
 Colour / Material: White / Smooth 9966
 Grams/m2 (gsm): 56
 Sheet size: 305mm x 305mm
 Packaging: 150 wipes / pack
 20 pack / box

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure 100** is application-engineered to protect ISO 5-8 cleanrooms from particles and additives.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE 100

Product code: 2117
 Product name: **SONTARA® MICROPURE 100**
 D 1354 6506
 Colour / Material: White / Smooth 9966
 Grams/m2 (gsm): 56
 Sheet size: 457mm x 457mm
 Packaging: 75 wipes / pack
 10 pack / box

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure 100** is application-engineered to protect ISO 5-8 cleanrooms from particles and additives.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE SV

Product code: 2120
 Product name: **SONTARA® MICROPURE SV**
 D 1354 7721
 Colour / Material: White / Smooth 9966
 Grams/m2 (gsm): 51
 Sheet size: 224mm x 224mm
 Packaging: 500 wipes / pack
 20 pack / box

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure SV** is application-engineered to protect ISO 7-9 cleanrooms from particles and additives.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE SV

Product code: 2121
 Product name: **SONTARA® MICROPURE SV**
 D 1354 7738
 Colour / Material: White / Smooth 9966
 Grams/m2 (gsm): 51
 Sheet size: 305mm x 305mm
 Packaging: 250 wipes / pack
 20 pack / box

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure SV** is application-engineered to protect ISO 7-9 cleanrooms from particles and additives.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE SV

Product code: 2122
 Product name: **SONTARA® MICROPURE SV**
 D 1354 5410
 Colour / Material: White / Smooth 9966
 Grams/m2 (gsm): 51
 Sheet size: 457mm x 457mm
 Packaging: 75 wipes / pack
 10 pack / box

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure SV** is application-engineered to protect ISO 7-9 cleanrooms from particles and additives.

- Engineered for cleanroom use

- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE MOP

Product code: 2125
Product name: **SONTARA® MICROPURE MOP**
D 1354 7742
Colour / Material: White / Smooth 9966
Grams/m2 (gsm): 51
Sheet size: 300mm x 590mm
Packaging: 500 wipes / pack
4 pack / box
6 boxes / pallet

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure MOP** is application-engineered to protect ISO 7-9 cleanrooms from particles and additives.

- Engineered for cleanroom use
- Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
- No binders or chemical treatments used in manufacturing process
- Low extractable level and ion content
- Low particle generation
- Advanced package design eliminates the need to cut bags in the cleanroom

SONTARA® MICROPURE MOP

Product code: 2126
Product name: **SONTARA® MICROPURE MOP**
D 1354 6710
Colour / Material: White / Smooth 9966
Grams/m2 (gsm): 51
Sheet size: 290mm x 400mm
Packaging: 500 wipes / pack
5 pack / box
12 boxes / pallet

When it comes to protecting the cleanroom environment, wiping products created by spunlace technology are a must. Spunlacing creates a strong, clean, nonwoven fabric, without the use of glues or binders that can attract cleanroom contaminants. **Sontara® MicroPure MOP** is application-engineered to protect ISO 7-9 cleanrooms from particles and additives.

- Engineered for cleanroom use

SONTARA® AC RANGE

(Designed specifically for aerospace)

Clean and low-linting

The Sontara® AC wipes are exceptionally clean – contains no added chemicals or binders, stains or metal shavings. The wipes are manufactured in a unique process that creates a strong, low-linting fabric. They are specially designed to resist snagging and fraying.

Strong and absorbent

The AC range handles isopropyl alcohol, MEK and other tough solvents without falling apart. Despite this, they are durable enough to be laundered, yet economical enough to use as a disposable.

Wide range of applications

Polishing bright work (chrome, high-polish aluminum, etc.)
Maintenance of landing gears and engines
Surface preparation for composite and paint work
Electrical and hydraulic systems assembly
Interior assembly and completion

SONTARA® AW 99

Product code: 2135
 Product name: **SONTARA® AW 99 – FLAT PACK**
 D 1366 8200
 Colour / Material: White / Apertured K868B
 Grams/m2 (gsm): 75
 Sheet size: 230mm x 230mm
 Packaging: 3000 wipes / box
 16 boxes / pallet

Sontara® AW 99 are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.

Sontara® aerospace grade wipes, style K868B, meet the following requirements:

- Aerospace Material Specification AMS 3819B, Class 2, Grade A
- Boeing Material Specification BMS 15-5F, Class A
- Bombardier Aerospace
- Cessna Aircraft Company CSFS039
- Douglas Material Specification DMS 1820E
- Pratt & Whitney GA100-11E
- U.S. Air Force T.O. 1-1-8

SONTARA® AC 1212

Product code: 2132
 Product name: **SONTARA® AC 1212 – FLAT PACK**
 D 1365 7426
 Colour / Material: White / Creped K802
 Grams/m2 (gsm): 75
 Sheet size: 305mm x 305mm
 Packaging: 100 wipes / pack
 10 packs / case
 27 cases / pallet

Sontara® AC 1212 are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.

Sontara® 1212, style K802, meet the following requirements:

- Aerospace Material Specification AMS 3819C, Class 2, Grade A
- Boeing Material Specification BMS 15-5G, Class A
- Douglas Material Specification DMS 1820E

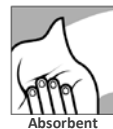

SONTARA® AC 1213

Product code: 2130
 Product name: **SONTARA® AC 1213 – ¼ FOLDED**

SONTARA® FOOD SERVICE

(Designed specifically for hygiene purposes)

Exceptional performance

The Sontara® Foodservice wipes are specially engineered to meet the needs of the food service industry with features like high absorbency and fast pick-up. These wipes are ideal for all cleaning and drying applications. Just a few of the many places you can find these high-performance wipes hard at work are restaurants, hospitals, offices and hotels.

Great hygiene

If you constantly have to worry about keeping surfaces clean and safe, it's a relief to know that Sontara® has developed the solution – Foodservice wipes. Ultra-absorbent, these multi-use wipes can soak up seven times their weight in liquid. They also pick up solids faster than standard wipes, and because they are fully approved for contact with food, they are ideal for cleaning appliances and stainless-steel surfaces such as prep tables. But you can also use them for wiping counters, clearing tables and cleaning sinks, faucets or floors. And since Sontara® Foodservice wipes come in five different colors, you can establish a color-coded system to organize the different tasks at hand.

Stronger – Last longer

Wet or dry, Sontara® Foodservice wipes deliver outstanding value because they're so strong and long-lasting. Over and over, they will clean leaks, streaks and dust, and save more in time, energy and money than traditional multi-purpose wipes. While their tight, dense structure provides strength and tear resistance, they are also incredibly light, and their soft, cotton-like feel makes any clean-up job more pleasant and efficient.

SONTARA® FOODSERVICE

Product code: 2051
 Product name: **SONTARA® FOODSERVICE**
 D 1365 3902
 Colour / Material: White/Apertured
