

Safety Cabinets for Hazardous Materials

Identify and safely store hazardous materials such as acids, bases, oxidizers, or toxic materials

- Application specific-labels identify contents to safely store and segregate incompatible chemicals
- Double-wall, 18-gauge (1-mm) steel with 1-1/2-in (38-mm) air space; 2-in (52-mm) leakproof sump
- Self-closing door(s) with a 3-point, stainless steel bullet latching system self-latch and self-close
- Fusible link on door(s) melt at 165 F (74 C) for automatic closure under fire conditions
- SpillSlope® adjustable, steel shelves fitted with polyethylene trays for chemical resistance against leaks. Polyethylene liner included for bottom of sump.
- 30-gal (114-L) cabinet includes an extra polyethylene work tray that can be placed on top of cabinet for a handy work surface

Segregate and identify hazardous materials to ensure a safe working environment.

Self-closing mechanism provides obstruction-free access to top shelf space.
