Maintenance

Storage Information

After the cleaning, store the gloves in a cool, dry and well ventilated place.

Care Instructions

To ensure optimum protection, CHAINEXTRA gloves should be kept in perfect condition for use.

At least once a day, they should be scrubbed vigorously with hot soapy water (50°C) or in a mixture of hot water (50°C) and detergent.

Rinsing at 82°C minimum. Desinfection with an approved product.

They can also be cleaned in a washing machine.

Do not clean chainmail protective gloves by knocking them against a hard surface.

Any glove showing signs of abnormal wear or missing chainmail must be replaced immediately by a glove in good condition. Only the manufacturer is authorised to repair defective gloves or to declare a glove beyond repair.
