

Rigging Plate

AR02

Small alloy rigging plate with large single attachment point and three small attachment points.

Features:

- Forged alloy construction
- Multiple attachment points

Forged construction gives high strength with reduced weight.

Simple multi attachment points, simplifies rigging with multiple anchors.

- Single main attachment point - accepts upto 3 karabiners
- Three further attachment points - 20mm diameter for single karabiners

Specifications:

NB: specifications and colour may change without notice.

Size: 10cm x 8cm

EN Test Mass: n/a

Loading: 36 kN MBL

Conformity: CE

Materials: Alloy

Weight (kg): 0.07

Industries: Access & Rescue
