

Zytron® 500 Decon Shower & Pool

PLS1540 Solution/Refill, Holds 185 gal.

Set up an onsite decon station quickly and easily in the event of an emergency.

- Designed for rapid deployment; simple assembly takes less than 10 minutes (see assembly instructions below under Additional Information)
- Entire shower and pool unit weighs only 26 lb. for easy handling
- Decon shower removes chemicals and other hazardous substances from emergency responders
- Removable spray wand connects to any standard garden hose (hose not included); adjustable shut-off valve provides flow control
- All components offer excellent chemical resistance: frame and wand are made of PVC; pool is constructed of durable Zytron 500 fabric, the same material used for Kappler's Level A Suits
- Containment pool holds wastewater to prevent environmental contamination
- Included ground tarp helps protect pool against punctures; also provides added protection against ground contamination
- Components are collapsible and fit inside included canvas carrying bag for grab-and-go contamination control
