

PIG® Static-Dissipative Absorbent Sock

SKM700 3" x 48", Absorbs up to 1 gal. per sock, 12 socks

This is the ONLY absorbent sock for fuels and solvents proven to dissipate static, making it safer for use when cleaning up volatile spills.

- Reduces the risk of electrostatic discharge, a critical precaution around flammable liquids and vapors
- Absorbs and retains oil-based solvents and fuels — including acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels — but not water
- Spunbond polypropylene skin is UV resistant up to 12 months
- Filler and skin are 100% static-dissipative polypropylene
- Socks pass NFPA 99 standards for static decay and surface resistivity, making them perfect for fueling areas, solvent cleanup and in truck spill kits
- Floats to contain and clean up spills on water
- Flame-resistant material won't burn immediately like cellulose mats; melts when exposed to high heat
- White color makes it easier to see absorbed oil or fuels

Specifications

Fluid Absorbed	Oils, Fuels, Other Oil-Based Liquids Only
Color	White
Dimensions	ext. dia. 3" x 48" L
Absorbency	Up to 12 gal. per box
Absorbency per	Up to 1 gal. per sock
Filler	Polypropylene
Skin/Outer Mesh	Skin - Polypropylene
Sold as	12 socks per box
Weight	14.5 lbs.
# per Pallet	24
Application	Spill Response

Metric Equivalent

Absorbency per	Up to 3.8 L per sock
Absorbency	Up to 45.4 L per box
Dimensions	ext. dia. 7.6cm x 121.9cm L
Weight	6.6 kg

Technical Information

Certifications, Approvals and Ratings

NFPA 99
