

# Spill Response Tool Kit for On Land

TLS1002 For Absorbents and Spill Kits

This easy-to-carry kit is stocked with the tools you need to clean up used absorbents after a land-based spill.

- Tool kit helps you retrieve saturated absorbents during land-based environmental and industrial spill cleanup
- Contains broom, squeegee, dustpan, absorbent picker, temporary disposal bags and other items to remove used absorbents and help clean up the spill
- Water-resistant nylon bag with handles and shoulder strap make kit easy to carry
- Sturdy, chemical-resistant tools are built to last
