

## Non-Sparking Response Shovel

TLS281 For Chemicals & Flammables, 2-Piece, 10" x 39"

Non-sparking metal shovel with detachable handle helps you quickly and safely clean up volatile or flammable spill response waste.

- Assembles in seconds to safely clean up spill response waste such as used absorbents, hazardous materials and contaminated soils
- Lightweight construction is non-static and non-sparking; ideal for use when flammables are present
- Stores behind truck seats or in other locations where an emergency shovel may be needed, but a full size shovel would not be practical
- Mid-sized scoop is compact enough to store easily when disassembled, but large enough to be useful as an emergency shovel

### Specifications
