Instruction for use :

These gloves are designed to protect user's hand against certain mechanical and/or chemical risks. Testing and marking on the gloves are in accordance with Directive 89/686/EEC as well as applicable CE Standards. Please ensure the gloves are used strictly for the intended applications.

Caution

Do not use glove which shows signs of imperfection or deterioration on opening the package. Discard immediately gloves which have become worn out or damaged when used. Never wear gloves which are wet or dirty inside to avoid dermatitis. Do not wear gloves with high tear resistant next to moving machine parts due to risk of entanglement. Quality of used gloves may deteriorate after long storage.

Cleaning

Rinse soiled glove externally with clean water before taking off. If necessary, soak glove into mild detergent solution follow with lukewarm water rinsing. Dry cleaning chemicals shall not be used. Drip dry or tumble dried at temperature not exceeding 40 degree Celsius. Store in cool, dry place and keep away from direct sunlight. Avoid placing gloves near to potential source of ozone and ignition such as electrical household appliances.

Disposal

Uncontaminated gloves may be disposed off with household waste. Used gloves which have been contaminated with hazardous chemicals must be disposed off with care in accordance with requirements of local authorities.
