

ANTI-SLIP & ERGONOMICS

Slips, trips and falls are the most common causes of injury at the workplace. They can result in serious injuries such as fractures and concussions, leading to unsafe workers and plenty of liability. Anti-slip mats can mitigate this and help keep your workplace safer.

Another trending cause of injury at the workplace are musculoskeletal disorders (MSDs). Good ergonomic practices can be used to prevent MSDs and make the work safer, healthier and comfortable for workers.

Some common MSDs:

- Back pain, poor blood circulation, carpal tunnel syndrome and muscle inflammation.
- These can be caused by heavy lifting and improper carrying or pushing techniques.

Furthermore, standing for prolonged periods of time on hard surfaces puts pressure on your feet, resulting in **aches, contact trauma and muscle problems**.

Good ergonomic practices can be used to prevent MSDs. **Back support belts** and **anti-fatigue mats** also help to alleviate such hazards.

BACK SUPPORT BELT

WORKSAFE® PREMIUM HEAVY DUTY BACK SUPPORT BELT

- 9" elastic band with 5 non-conductive stays for firmer support
- Rubberized stay covers keep belt in place
- Removable lumbar pad provides extra support and stability

ANTI-SLIP CLEATS

U-TRED® ANTI-SLIP CLEATS

U-TRED® is an innovative new product that installs in seconds onto all open grid type steps used in the mining, construction and agricultural industries.

The U-TRED® creates revolutionary step definition and features double action anti-slip cleats for that extra grip.

With no nuts, bolts or fasteners of any kind, your steps are upgraded instantly.

EASY INSTALLATION

BENEFITS

- Guaranteed to revolutionise your maintenance programme
- Galvanised for extended wear life against corrosion
- Renovate old worn steps
- Installs within seconds
- Save thousands in inventory costs
- Save thousands in installations costs
- One size fits all
- No additional hardware required

FEATURES

- Fantastic step definition
- Double action anti-slip cleats
- 4 self locking barbs to suit 25 x 5mm and 32 x 5mm step edges
- Flared leading edge to enable fast installation
- Powder coated in safety yellow to meet industry standards
- Available in one size 85 x 40mm

APPLICATIONS

Suits open type grid steps used in:

- Mining & Construction
- Oil Rigs & Power Stations
- Marine & Export Terminals
- Manufacturing & Processing Plants
